

Improving Production, Safety & Quality

with Brady Brand Products **ProX HEADER**

ProXHeader Metal Stud Framing

Smooth Drywall Finish

The man behind the Brady Brand. - Todd Brady

St. John's Hospital, Santa Monica, California

Contractors are discovering that when you specify, submit and install BRADY BRAND products you get FREE expert product support and the best quality framing components in the market.

Brady Construction Innovations, the makers of ProX Header and SLP-TRK Brand Slotted Track offers FREE TECHNICAL, SUBMITTAL, & INSTALLATION SUPPORT.

Code approved head-of-wall construction joints and door & window rough opening framing can be complicated. Use BRADY BRAND products and make these tasks easy and profitable. We have all the tools to help you specify and submit our products at our fingertips. Better yet just call and we will do all the submittal work for you.

Head-of-Wall Construction Joints

Sliptrack Systems has over 200 UL tested listed head-of-wall assemblies, CAD drawings and ICC Report ESR1042. Code approved fire-rated head-of-wall submittals are a snap. We will even package and overnight them to you.

Rough Opening Framing

Interior or Exterior, Door and Window - Jamb & Headers are one of the most time consuming elements of your framing budget. Brady's ProX Header [rough opening] framing system makes it easy. Call us and we'll provide you a complete framing submittal utilizing ProX Headers and Single Jamb studs that will save you material and countless man days of work. Our system comes complete with all the back-up calculations too. Put us to work on your next project!
