

# Improving Production

## Safety & Quality with Brady Brand Products

*The man behind the Brady Brand.*  
- Todd Brady

**Contractors are discovering that when you specify, submit and install BRADY BRAND products you get FREE expert product support and the best quality framing components in the market.**

**Brady Construction Innovations, the makers of SLP-TRK Brand Slotted Track and ProX Header offers FREE TECHNICAL, SUBMITTAL, & INSTALLATION SUPPORT.**

Code approved head-of-wall construction joints and door & window rough opening framing can be complicated. Use BRADY BRAND products and make these tasks easy and profitable. We have all the tools to help you specify and submit our products at our fingertips. Better yet just call and we will do all the submittal work for you.

#### **Head-of-Wall Construction Joints**

Sliptrack Systems has over 200 UL tested listed head-of-wall assemblies, CAD drawings and ICC Report ESR1042. Code approved fire-rated head-of-wall submittals are a snap. We will even package and over night them to you.

*The Century is another beautiful addition to the Los Angeles skyline.*

The 41-story tower is a showcase of several unique features of architecture and construction.

#### **Services used:**
